

Speaker Profile

Zoe Slade is the **Sustainability Manager** at the **British Coatings Federation**, leading the industry's key sustainability committees and driving Net Zero engagement, environmental reporting, and regulatory insight across the UK coatings sector. She works closely with members, government bodies and wider stakeholders to support practical carbon-reduction strategies and champion responsible, forward-looking industry practices.

With over 20 years' experience in sustainability, energy and transformation roles, Zoe brings clear, solution-focused thinking to complex technical and policy challenges.

Summit session:

Title:

Abstract:

Is the World Ready for a Sustainable Product Market?
