

18.12.2025, Erzurum

Subject: Invitation to 28th ICCE & 17th ECRICE (ICCECRICE 2026)

Dear Colleagues,

IUPAC 28th International Conference on Chemistry Education & EuChemS 17th European Conference on Research in Chemical Education (ICCECRICE 2026) will take place from July 13 to 17, 2026, at Atatürk University in Erzurum, Türkiye, in collaboration with the Turkish Chemical Society.

This joint conference serves as a major international forum for researchers and practitioners from around the world to share their latest research findings and best practices in chemistry education.

The theme of the conference is “*Chemistry Education in the Age of Artificial Intelligence*”. The interplay between the development of technology, particularly generative artificial intelligence, and its implementation in the classroom is a hot topic. However, ICCECRICE 2026 is open to all areas of research in chemistry education. We believe this conference will be a platform to share your good practices as well as learn different perspectives worldwide.

Call for Participation & Abstract Submission

We are thrilled to announce that the abstract submission portal for ICCECRICE 2026 is open, as of December 1, 2025. The deadline for the abstract submission is February 15, 2026.

We strongly invite you to submit your research, theoretical insights, and innovative practices for presentation at ICCECRICE 2026. Don't miss the chance to engage with top experts and discover the latest developments in chemistry education!

We look forward to welcoming you to Erzurum, a culturally rich city with more than a thousand years of history in education!

Yours sincerely

Prof. Dr. Mustafa SÖZBİLİR, Conference Chair

On behalf of the ICCECRICE 2026 Organising Committee
