New Molecular Tools for Understanding Biology

Fostering interdisciplinary collaborations through chemical biology.

The Valrose Chemical Biology Exchange is a new international symposium bringing together chemical biologists, protein engineers and life scientists developing and applying cutting-edge molecular tools to investigate biological systems and enable new approaches in biomedical research.

Keynote Speakers

Prof. Irene COIN

Leipzig University, Germany

Chemical biology, bioorthogonal chemistry, protein labeling, and protein interaction

Dr. Ludger JOHANNES

Institut Curie, France

Endocytosis, intracellular trafficking and chemical biology

Prof. Kathrin LANG

ETH Zürich, Switzerland

Genetic code expansion and protein engineering

Dr. Shixin YE-LEHMANN

Université Paris-Saclay, France

Chemical biology, fluorogenic probes and neurobiology

Scientific Themes

Chemical Biology • Genetic Code Expansion • Bioorthogonal Chemistry • Protein Engineering • Molecular Imaging • Protein–Protein Interactions • Photocontrol & Optogenetics

Tentative programme

Time	Activity
12:30 – 1:00 PM	Registration & Arrival
1:00 – 2:00 PM	Networking Lunch
2:00 PM	Welcome
2:10 PM	Keynote Lecture – Prof. Irene Coin
2:40 PM	Keynote Lecture – Dr. Shixin Ye-Lehmann
3:10 PM	Industry & Poster Flash Presentations
3:35 – 3:55 PM	Coffee Break & Industry Exhibition
3:55 PM	Keynote Lecture – Prof. Kathrin Lang
4:25 PM	Keynote Lecture – Dr. Ludger Johannes
5:00 – 5:45 PM	Poster Session & Networking
5:45 PM	Closing Remarks
6:00 PM	End of Symposium
